RESEARCH

SKOLKOVO School of Management applies an interdisciplinary, evidence-based approach to education, grounded in research and a continuous pursuit of new knowledge and competencies.

Academic scholars and seasoned business leaders comprise SKOLKOVO core faculty.

Their expertise spans leadership, entrepreneurship, change management, machine learning, HR management, organizational behavior, strategy, marketing, operations management, finance, and communications.

EXPERTISE

SKOLKOVO internal expertise is further strengthened by visiting professors from leading international universities and business schools.

80 educational programmes in the School portfolio

- > MBA programmes
- > Entrepreneurship programmes for the launch and development of businesses

- > Leadership and professional competencies development programmes
- > Programmes for different sectors and industries

- > Solutions for the public and social sectors
- > Customised corporate educational programmes

- > Bachelor's degree programmes
- > Programmes for young professionals
- > Programmes for high school students of 8th-11th grades

INNOVATION

Immersive technologies and multimedia experiences open up a space where participants are free to explore, take bold risks, embrace mistakes, and unlock the power of both learning and unlearning.

The digital layer of the campus includes smart multifunctional lecture halls, Glassroom virtual classrooms, holographic projections, AR studio and many other elements.

SKOLKOVO is a unique ecosystem of spaces designed not only for learning, but also for connection, creativity, leisure, and sports.

65

acres:

SKOLKOVO School of Management spans over 65 acres on the border of Moscow and the region.

ARCHITECTURE

The campus building is ranked among the top 20 architectural landmarks of the 21st century in Russia, according to Afisha Daily. It is a true indoor city, designed around the idea of complete openness and seamless access.
